

We've Been Doing The Wash For 50 Years.

For Brighter, Cleaner Solutions Hays Fluid Controls Has 50+ Years of Ground-In Experience.

For than half a century, Hays Fluid Controls has quietly been controlling laundry equipment flows, taking the heat and pressure, and building a spotless record or reliability.

Hays products have performed best where it counts most, on the job, with proven designs such as Hays' Electroflo and Electrosteam solenoid valves.

And don't forget advanced-technology products capable of perfectly fitting your latest systems.

Your confidence in proven products, plus our commitment to the latest fluid controls technology is a recipe for reaching the highest performance in new designs or existing product line.

For the best fluid controls' solutions in the laundry business call your Hays representative at 1-800-354-HAYS (4297).

Hays Fluid Controls, Div. of Romac Industries.
